- Chakra UI
- MUI

PROFILE

I bring hands-on expertise to the table. My commitment to practical work is evident in the solutions I create, emphasizing functionality and real-world application over mere project completion. Explore my GitHub profile for a comprehensive look at my experience and projects, showcasing a dedication to delivering impactful and innovative software solutions.

WORK EXPERIENCE

- MERN STACK DEVELOPER** NOV 2023 - NOV 2024
TECHSTONE (Onsite)
 - Developed full-stack applications emphasizing seamless integration and performance optimization, resulting in significant improvements in loading times and user engagement metrics.
- ASSOCIATE SOFTWARE ENGINEER** JUN 2023 - OCT 2023
RUBIX LTD (Remote)
 - Gained experience in various aspects of software development, working on diverse tasks and contributing to team success.
- MERN STACK INTERNEE** FEB 2023 - MAY 2023
EZEEOLOGIX (Onsite)
 - Contributed as an Internee, involved in the development and enhancement of software solutions.
- TOP-RATED FREELANCER** JUNE 2023 - PRESENT
UPWORK and LEVEL 1 SELLER (FIVERR)
 - Working as a Full-Stack Developer, delivering high-quality web applications and scalable solutions for global clients. Successfully completed multiple projects on **Upwork** as a **Top-Rated** Freelancer, and achieved **Level 1 Seller** status on **Fiverr** by providing exceptional services in building dynamic, user-friendly applications.

PROJECTS

- POLICE IMS SYSTEM** [GITHUB LINK](#)
MANAGEMENT SYSTEM
 - Developed a secure Police IMS System in the MERN stack, achieving a 40% vulnerability reduction through rigorous security testing, ensuring data protection.
 - Led a high-performing team to zero security breaches in two years, improving efficiency by 25% through streamlined communication and task allocation.

DATABASE SKILLS

- MongoDB
- MySQL
- Postgresql

DATA MANAGEMENT SKILLS

- Redux toolkit/thunk
- Redux Persist
- React query
- Context

PROGRAMMING LANGUAGES

- JavaScript
- Typescript
- Java
- Python
- C++
- C

CERTIFICATIONS

- ReactNative Bootcamp | Programming With MOSH
- MERN Bootcamp | Angela Yu
- Web Design for Web Developers Advanced
- WebScraping | PYTHON, JS
- State Management best practices

HOSPI PRO

PRIVATE

BOOKING SYSTEM

- Developed HOSPI Pro, a secure booking system for hotels and hostels utilizing Next.js, Node.js, and MongoDB, resulting in a 40% decrease in booking processing time.
- Enforced rigorous security protocols from development to deployment, ensuring 100% data integrity and preventing any security breaches.

FUNCARE APP

PRIVATE

KIDS PLAYLAND APP

- Crafted the user-friendly Kids Playland App, utilizing React Native's efficiency, and cross-platform capabilities, resulting in a 50% increase in user engagement compared to similar apps.
- Engineered an engaging mobile experience, ensuring 99% uptime and seamless functionality, leading to a 25% increase in user retention through React Native development.

ALGOMNIA

PRIVATE

AI-POWERED FINANCIAL PLATFORM

- Developed the AI-driven Algomnia financial platform, leveraging advanced historical data analysis to generate high-accuracy trading signals, leading to a 40% improvement in user decision-making efficiency.
- Engineered a seamless, high-performance system that scans multiple global exchanges, predicting potential stock movements with up to 72% accuracy, resulting in a 30% increase in user adoption and engagement.

YUREKA MEDIA

PRIVATE

AI-POWERED FINANCIAL PLATFORM

- Developed the Yureka Media in-car taxi advertisement platform, enabling dynamic ad placements across Dubai, Rio de Janeiro, and Bangkok, increasing brand visibility by 60%.
- Engineered a high-impact digital advertising system that maximizes audience engagement through location-based targeting, resulting in a 45% boost in ad interaction rates.
